

## FEATURES

- All connectors UPC polished
- SM, MM 10 Gig configurations
- 4 to 144 connector count
- 100% tested, superior factory terminated connectors
- Custom cable length
- Any connector combination
- Matching Hardware available

Optical multi fiber cable assemblies with custom breakouts for all your high density applications, factory terminated assemblies using Multiple-Fiber Push-On/Pull-off or hybrid configurations, one to one or butt ends available for splicing, available in with ROHS compliant construction or regular construction.

Our multi fiber assemblies are used around the world and provide years of proven performance and reliability and are available in Tight buffer, Data pipe and bundled fiber in:

SM - 9um/25um

MM - 62.5um/125um

MM - 50um/125um
